志望学科を○で囲みなさい。

I 次の英文を読み、その文意に沿って、 ～ の答えとして最も適切なものを、下の からそれぞれ1つずつ選びなさい。

1 According to this article, why is Japan in a good position in the entertainment world?

1. It has strong business ties with Hollywood studios.
2. It has years of cultural content that is already popular worldwide.
3. It produces more new films than other countries.
4. It is quickly learning international production methods.

2 What is implied by the use of the phrase "Peak Japan" in the article?

1. Japan has stopped creating content that has been popular worldwide.
2. Japan may have already passed its most influential period or could now be reaching its highest global popularity.
3. Japan's economy is stronger than ever before according to economic data.
4. Japan is focusing only on domestic success, not global influence.

3 Why does the article mention that only a small part of Japan's manga has been turned into anime?

1. To argue that manga is more profitable than anime.
2. To explain the popularity of manga in Japan.
3. To show there is still great potential for future anime production.
4. To suggest that manga should remain separate from anime.

4 Why did the Japanese government include anime in the revised "New Cool Japan Strategy"?

1. Creative development and artistic innovation were immediately achievable.
2. Japanese anime began to become explosively popular in America.
3. Anime has helped Japan's culture become well-known around the world.
4. Anime has always been supported as an industry of no strategic value.

5 Why is the example of the American sprinter Noah Lyles included in this article?

1. To emphasize how deeply Japanese culture has spread globally.
2. To show that Japanese anime is only popular in sports competitions.
3. To introduce a famous athlete who won a gold-medal at the Paris Olympics.
4. To explain the connection between sports and Japanese fashion.

6 What economic insight does the article offer regarding anime goods?

1. They are often sold along with streaming content.
2. They usually attract domestic buyers, rather than international ones.
3. They are used mainly to promote lesser-known anime titles.
4. They can generate much more money than the anime shows themselves.

7 What is one advantage for Japan in working with global streaming companies, according to the article?

1. These companies are interested in unique international content, which Japan can offer.
2. These companies mainly focus on live-action shows, giving anime a niche market.
3. These companies already have strong partnerships with Japanese universities.
4. These companies are most successful in countries with little interest in animation.

8 According to the article, what challenge does Japan face in its entertainment industry?

1. A lack of talented creators.
2. Government restrictions on anime exports.
3. Adapting domestic practices to international standards.
4. Too much competition from Hollywood.

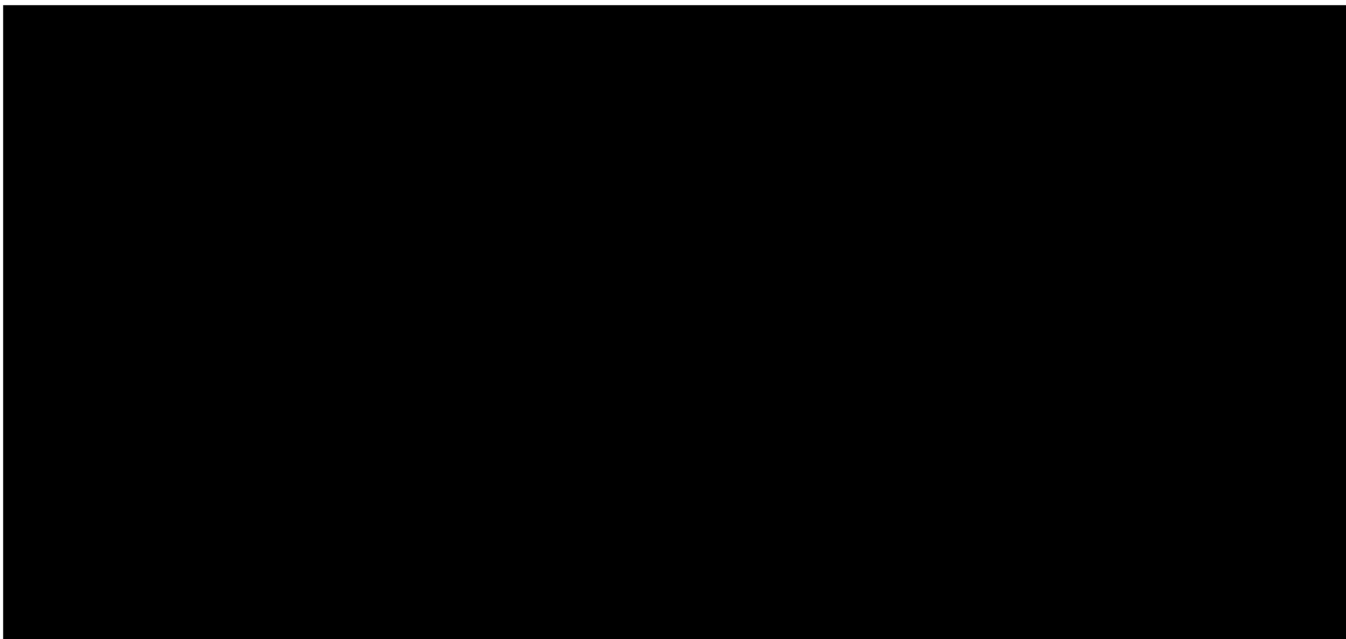

9 What role does the article suggest digital transformation plays in Japan's entertainment future?

1. It is helpful but not urgent.
2. It can be delayed until after 2030.
3. It is optional for only large companies.
4. It is essential for global success.

10 What is the main message of this article?

1. Japan must reduce its focus on anime and grow its economy in other ways.
2. Japan must be satisfied that it already leads global entertainment culture.
3. Japan must accept that its cultural power is shrinking and hard to regain.
4. Japan must use its culture to gain influence and build economic success.
